II. ORGANIZATION

In addition to this Word (pdf) Preface, USPS-RM2016-12/2 consists of a zip file containing three files – two SAS datasets and an Adobe (pdf) file. The SAS datasets are named **interbmc.sas7bdat** and **interpdc.sas7bdat**. The Adobe file is named **TIMES SV Regression Results.pdf**. The SAS datasets were used to produce the summary statistics and regression output that start on the third and fourth page of the Adobe file. The first two pages of the Adobe file contain information about the data sources used, methods used to construct some variables, and the basic regression models that were estimated.
